SUMMARY

I am a full-stack web developer with strong interpersonal and oral communication skills. I'm an idea guy, who loves strategizing and contributing to products that improve and enrich people's daily lives. I also have a proven track record of learning new languages and frameworks very quickly. I work really well within a team dynamic but I also enjoy solo projects.

SKILLS

LANGUAGES: Ruby, Javascript
FRAMEWORKS: Ruby on Rails, Sinatra, React
TESTING FRAMEWORKS: RSpec, Capybara, Jasmine
DATABASE: ActiveRecord, SQL(PostgreSQL, SQLite)
FRONT END: HTML5, CSS3, Bootstrap, Foundation
VERSION CONTROL: GIT
METHODOLOGIES: Object-Oriented Design, Test Driven Development

PROJECTS

Infomys Strength Tracker
A visual workout tracking and analytics app (Rails).
- Used Rails and Ajax with several ruby gems.
- Source: https://github.com/amihalopoulos/workout-tracker | URL: http://infomys.herokuapp.com/

TubeGenius
A time triggered comment and annotation site for YouTube videos with user messaging and notification capabilities (Rails).
- Created models, migrations, and views for comments, in-app messaging, and notifications with 90% test coverage.
- Utilized Foundation and CSS to style commenting, messaging, notifications, and user profiles.
- Source: https://github.com/amihalopoulos/tubegenius | URL: http://tubegenius.herokuapp.com/

2048
A clone of the single player puzzle game.
- Integrated a JavaScript interface independent of a backend with a JavaScript model that is independent of the interface
- source: https://github.com/amihalopoulos/2048-clone |
   URL: http://amihalopoulos.github.io/pages/2048

Stack Overflow Clone
Clone of Stack Overflow made using Ruby on Rails, ActiveRecord, PostgreSQL, JavaScript, and Bootstrap CSS.
- Source: http://github.com/amihalopoulos/stack-overflow

EDUCATION

Dev Bootcamp May 2015
19-week intensive course in Ruby on Rails and Javascript full-stack development

University of Maryland Robert H. Smith School of Business
B.S. Management/Entrepreneurship 2014

EMPLOYMENT

U.S.A. Home Improvements Corp, *Manager*, Teaneck, NJ   Jun 2014 - Jan 2015
- Managed projects and served as primary liaison between client and multiple internal groups to ensure clarity of goals, quality and adherence to deadlines
- Created Facebook page, blog, newsletter, and brochures to market to new and existing customers
- Supervised job sites of up to 20 employees by managing supplies, ensuring construction matched drawings/plans, and following state regulated safety protocol
- Calculated, prepared, and issued bills, invoices, and account statements according to established procedures
